

Three unique Mother's Day gift ideas

Mother's Day is fast approaching, so it's time to start thinking about how you'll celebrate. Here are a few ideas that are sure to put a smile on her face.

1. A professional photo shoot

Is your mom the type of woman who's never satisfied with the way she looks? Treat her to a session with a professional photographer! This way she can finally have a picture of herself she actually likes.

Don't worry: an experienced photographer will know exactly how to find the perfect angle to immortalize Mom's unique beauty. If you want to make her feel even more confident, book an appointment with a professional stylist right before the shoot.

2. A tree

If you're looking for a gift for your na-

ture-loving mom, have her choose a beautiful tree that she can plant wherever she pleases.

If she lives in an apartment, have her choose a smaller tree that she can keep indoors. Ideally, she should pick one that doesn't require too much maintenance. She'll surely be moved by your special gift and out-of-the-box thinking.

3. A personalized trinket

There are all sorts of different companies out there that let you personalize clothing, pillows, cups, puzzles, jewellery, calendars, aprons — virtually any other item you can think of!

You could engrave, embroider or print whatever you like on the gift you want to give your mother. Think about using a special image, an inspiring quote or simply her name. This thoughtful present is guaranteed to make Mom smile.

Are you having trouble finding the perfect Mother's Day present? If so, then perhaps you should consider that what your mom really wants is time — both to share with her loved ones and to enjoy by herself. Here are a few ways to give it to her.

Plan a day of activities

Plan a full day of activities for the family so Mom can sit back and enjoy spending time with her loved ones, without the hassle of having to manage itineraries, make reservations or organize any of the other details.

Do the spring cleaning

Deep clean the kitchen, organize the closet or wash all the windows. You can even hire a cleaning company to do the job; you'll score the brownie points without having to lift a finger.

Sort the family photos

Many families have countless digital photographs on their computers that could stand to be organized. Others have piles of printed pictures that need to be sorted. Give Mom a reason to smile by tidying up the photos and presenting them to her in an album. Be sure to spend some time reminiscing with her as she flips through it.

Offer her a day off

If she's got young kids, hire a babysitter for the day. This will give her a much needed break and the chance to do whatever she wants. If you really want to spoil her, send her to a spa to get pampered.

Mom doesn't really need things for Mother's Day. What she really wants is a shorter to-do list, a bit of down time and to enjoy the company of her family.

Spoil Mom with these custom gift ideas

There's no doubt that your mother is unique, which is why she deserves a little something special that reflects her individuality. In need of some inspiration? Consider these custom gift ideas for different personality types.

THE FOODIE

Cupcakes, candy, wines or fine chocolate — what's your mother's guilty pleasure? If Mom is always in the kitchen cooking up a storm, perhaps she'd like a recipe book or a new set of cooking utensils. Otherwise, treat her to a meal at that restaurant she's been dying to try!

THE ATHLETE

Does your mother love to stay active? Between trendy workout clothes, a functional gym bag and a gift card to her favourite sports boutique, the possibilities for your fitness-loving mom are endless.

THE ARTIST

If your mother has a cre-

ative eye or loves listening to music during her downtime, consider supplies for her craft of choice (scrapbooking, painting, knitting, etc.) or her favourite band's latest release. For some cherished quality time together, take her to a concert or a newly opened art gallery!

THE INTELLECTUAL

Is your mother one of the smartest people you know? Put her wits to the test with a challenging board game or a puzzle book. Does she have an insatiable desire for knowledge? Quench her thirst with a documentary series or a subscription to a scientific magazine.

THE ZEN DIVA

There's nothing like a riveting book by her favourite author, a relaxing spa package or a new yoga mat to spoil your mother! If she's constantly looking for new ways to unwind, consider a meditation pillow or an anti-stress colouring book to help soothe her soul.

Give the gift of jewelry this Mother's Day

Does your mother adore jewelry? Here are some suggestions to help you find the perfect gift.

PERSONALIZED JEWELRY

There's no better gift to mark the occasion than one with a sentimental touch; for example, a ring embedded with each child's birthstone, a bracelet with charms representing your mother's interests or a piece of jewelry engraved with a sweet note. No matter your choice, she'll certainly be moved!

CUSTOM-MADE JEWELRY

Is there anything more touching than gifting your mother a piece of jewelry that's as unique as she is? Whether she's

bohemian, romantic or eccentric in style, choose the shape, material, colour and size according to her personality and flair.

SYMBOLIC JEWELRY

A heart-shaped necklace is an elegant way to express your deepest sentiments. With a variety of designs available to choose from, you'll surely find the perfect gem that suits both her style and your budget!

There's nothing like a personalized, custom-made or meaningful heart-shaped jewel to tell your mother just how much you love her.
